

DEPARTMENT OF HUMAN BIOLOGY

3 February 1970

Dear Roy,

I am glad to learn that you hope to have a copy of your paper for us to look through in the very near future. We can then discuss a date on which both the manuscripts should be sent to the Journal.

Many thanks also for your suggested alterations. We certainly slipped up on the form of presentation for the references but we are proceeding to retype this in the correct form.

With kind regards,

Yours sincerely,

R.L. KIRK.
