

10th October, 1960.

Mr. K. Siggs,  
Superintendent,  
United Aborigines Mission,  
Warburton Ranges,  
via Leonora, W.A.

Dear Mr. Siggs,

I would like to express my very great appreciation for your hospitality and your help on my recent trip to Warburton. The results from the testing of the blood samples collected were extremely valuable and will add to our detailed knowledge of the aborigines from the Western Desert area.

I was sorry my visit was such a brief one, and I hope that the next time I visit you that I will be able to stay longer.

With kind regards,

Yours sincerely,

---

R.L. Kirk.
